

ABOUT THE ACHARYA INSTITUTES

Established under J.M.J educational society 33 years ago, we at Acharya Institutes, Bangalore are proud to be the choice of students from around the world. Acharya Institute is the Bangalore's largest composite academic facility, with over 12,000+ students. It all began with a vision to set a new benchmark in the world of education. And now, an annual count of 12,000+ students and 100+ academic programmes, it is safe to say that Acharya is right there in the top bracket, globally, when it comes to the quality of education and the possibilities that the young achievers here are presented with. Acharya Institutes is one of the best colleges in India! Spread across 120 acres of pristine land in Bengaluru India's 'technology hub' and located only a few minutes' drive from top-notch multinational companies and Indian corporates, the Acharya campus is a magnificent sight, to begin with. Being counted amongst the top colleges in Bangalore, Acharya hosts it's student-centric design and innovative blend of modern and traditional styles of architecture, the campus is a perfect setting for the students to let their ideas fly and get closer to realizing their dreams. Here the emphasis is on experiential and collaborative learning and our students learn the ways of the world directly from each other, with the campus being home to students from no less than 75 countries.

ABOUT THE ACHARYA INSTITUTE OF GRADUATE STUDIES (AIGS)

Acharya Institute of Graduate Studies was established in the year 2005 and offers 11 Undergraduate Programs, 9 Postgraduate programs. The diverse academic programs has attracted more than 5000 students across the world as well as from all parts of India and AIGS is NAAC Re-accredited to A+ in the year 2023. The goal of Acharya Institute of Graduate Studies to excel in teaching, learning, research and developing professionals who make a difference globally. The academia and Student fraternity at Acharya is not only involved in teaching but they also pursue research to push the boundaries of human knowledge and step ahead to take the future challenges and solve the complex problems. Notable alumni remarkable achievements has given a greater strength to consider AIGS as one among the other Institutions.

The stake holders consistently take part and render the support to reach globally. Acharya Institute of Graduate Studies is the ultimate destination, located in the south Indian city of 'Bangalore', known as the "Silicon Valley of India".

ABOUT THE DEPARTMENT

Department of MBA incepted from the year 2021, Affiliated to Dr. Manmohan Singh Bengaluru City University and recognized by All India Council for Technical Education (AICTE), New Delhi. This program gives dual specialization with an option to opt for Global Immersion Programme. Students are given an opportunity to explore and interact with Corporate Professionals, organizing Seminars, Management Club activities, Panel Discussions, Conclave, SDP, RDP, FDP, MDP and the possibilities of being an entrepreneur through our Incubation Centre. A The certificate shall be issued to those Participants who will have minimum 80% attendance. E- certificate will be provided by ATAL Academy after successful completion of workshop

ABOUT THE WORKSHOP

The Faculty Development Programme (FDP) on "AI-Enabled Integrated Sustainable Intelligent Communication Framework for Advanced Supply Chain Risk Management and Resilience" aims to equip academicians, researchers, and industry professionals with advanced knowledge of AI applications in modern supply chains. In today's dynamic environment, supply chains face disruptions, uncertainties, and sustainability challenges, requiring intelligent and resilient solutions.

This FDP focuses on integrating AI-driven communication frameworks with sustainable practices to enhance real-time decision-making, coordination, and visibility. Participants will gain exposure to key areas such as AI-based risk analytics, predictive modeling, IoT, blockchain, and data-driven strategies for optimizing resources and reducing environmental impact. The programme includes expert sessions, case studies, and interactive learning.

It also promotes interdisciplinary collaboration and innovation, enabling participants to design adaptive and sustainable supply chain models. By the end of the FDP, participants will be empowered to contribute effectively to research, teaching, and industry practices.

KEY TAKEAWAYS

1. Understanding AI-enabled intelligent communication frameworks improving supply chain coordination efficiency.
2. Gaining insights into sustainable practices for environmentally responsible supply chain management.
3. Learning AI-driven risk analytics for predicting and mitigating supply disruptions.
4. Developing resilient strategies to manage uncertainties in dynamic global supply chains.
5. Enhancing data-driven decision making using AI for operational efficiency improvement.

BROAD AREAS OF WORKSHOP

- Artificial Intelligence in Supply Chain Management
- Intelligent Communication Systems and Digital Integration
- Sustainable and Green Supply Chain Practices
- Supply Chain Risk Analytics and Predictive Modeling
- Resilient and Adaptive Supply Chain Strategies
- Data-Driven Decision Making and Business Analytics
- Emerging Technologies: IoT, Blockchain, and Big Data in Supply Chains
- Digital Transformation and Industry 4.0 in Logistics and Operations
- Global Supply Chain Disruptions and Risk Mitigation Techniques
- Interdisciplinary Research in AI, Sustainability, and Supply Chain Management
