

DEPARTMENT OF AVIATION MANAGEMENT

Report Submission: 31/072026

Semester:	I	Academic Year:	2026–27	Venue:	Main Auditorium, Acharya Institutes
Event Date:	21/07/2026	Time:	01:30 PM to 04:30 PM	Duration:	03:00 Hrs

TYPE OF EVENT: ORIENTATION

EVENT NAME: BBA AVIATION DEPARTMENTAL ORIENTATION

Target Audience:	1 ST Sem BBA AV Students	Number of Participants:	76	Event Coordinator:	Mr.Remith Rajendran
-------------------------	--	--------------------------------	----	---------------------------	------------------------

Objectives:

1. To analyze and understand the core operational rules of the department policies
2. To evaluate and understand the structure of the current academic syllabus.
3. To review and understand the range of non-academic programs and extra-curricular activities available to students.

Program Introduction: This orientation session introduces our new students to the academic environment, professional standards, and operational guidelines of the aviation department. It serves as a foundational step to align your academic goals with the dynamic demands of the global aviation industry

Theme of the Event: The theme focuses on building a bridge between theoretical knowledge and real-world aviation career paths. It highlights the structured journey students will take through academic rigor, skill development, and industry-readiness. The event aims to inspire incoming students to take control of their career flight paths from day one.

Detailed Report:

The BBA Aviation Departmental Orientation was successfully conducted to welcome the newly enrolled first-semester batch. This crucial session introduced new students to the academic environment, professional standards, and operational guidelines of the aviation department. It served as a foundational step to align individual academic goals with the dynamic demands of the global aviation industry. The event successfully inspired incoming students to take control of their career flight paths from day one, setting a proactive tone for their higher education journey.

Achieving the first core objective, the initial segment established clear operational boundaries and institutional expectations. Faculty members detailed critical departmental policies, emphasizing mandatory attendance thresholds, grading structures, and strict academic integrity guidelines. Students received a thorough briefing on professional ethics, grooming standards, and behavioral codes necessary for the aviation sector. This segment ensured that the new cohort understood the discipline and corporate compliance required to thrive within both the department and the aviation industry.

Addressing the second objective, a comprehensive walkthrough of the BBA Aviation curriculum followed the policy session. The presentation highlighted the structured journey students will take through academic rigor, skill development, and industry-readiness. Faculty members mapped out specialized aviation modules, core business management subjects, and continuous evaluation schemes. This academic roadmap explicitly demonstrated how theoretical knowledge links directly to real-world aviation career paths, giving students a clear vision of their upcoming semesters.

Fulfilling the final objective, the orientation highlighted holistic development through extracurricular activities. Students were introduced to active student clubs, upcoming airport exposure visits, and professional development workshops. An interactive ice-breaking session allowed the new peers to connect, encouraging teamwork, leadership, and communication skills. This segment reinforced how practical, hands-on exposure complements classroom learning to build well-rounded, industry-ready management professionals.

The Head of the Department delivered a decisive address emphasizing that professional discipline is the absolute cornerstone of a successful career in aviation management. The department maintains an uncompromising, zero-tolerance policy regarding attendance benchmarks, demanding an unwavering punctuality that mirrors the split-second operational precision of the global aviation industry.

HOD explaining about departmental policies

Interaction with students by HOD

Alive presentation by Ms Pavithra

Outcomes:

1. Students demonstrated a clear understanding of departmental policies, mandatory attendance thresholds, and the strict code of conduct required in the aviation sector.
2. Registration for aviation clubs, industry-visit committees, and professional development extracurriculars saw immediate, high student enrollment
3. The bridge between academic frameworks and real-world aviation management career paths was clearly established for the new cohort.

Conclusion and Audience Feedback Summary:

The event concluded with an open-ended interactive session, answering student queries regarding internships and global certifications. The orientation successfully equipped the incoming batch with the essential regulatory, academic, and practical knowledge required for a prosperous career in aviation management.

Feedback:

- 1.Participants expressed immense satisfaction with the clarity of the curriculum breakdown and the interactive nature of the session.
- 2.The overall sentiment indicated that the policy briefings effectively alleviated student anxieties regarding credit requirements and attendance rules.
