TYPE OF EVENT: STUDENT DEVELOPMENT PROGRAMME

EVENT NAME: LOGIC LAB FOR STUDENTS ON FINANCIAL MODELLING

Target	III & V Semester	Number of		Event	Ms. Anvitha
			7		
Audience:	B.com Students	Participants:		Coordinator:	Prakash Salian

Objectives:

- To familiarize internship students with the CMA (Certified Management Accountant) and CPA professional courses, including their scope, eligibility, career opportunities, and benefits.
- To introduce the importance of Microsoft Excel and explain how Excel skills are used in accounting, finance, auditing, and business analysis.
- To help students understand the value of professional certifications and technical skills in enhancing their employability and career growth.
- To encourage students to make informed decisions about pursuing professional qualifications and developing practical workplace skills.

Program Introduction:

The internship programme was conducted by MyLogic Institute for foreign students with the objective of enhancing their knowledge and practical skills in accounting, finance, and business applications. A total of 7 students participated in this 3-day workshop, which combined interactive learning sessions with practical exposure.

The programme was designed to introduce students to globally recognized professional courses such as Certified Management Accountant (CMA) and Certified Public Accountant (CPA), providing an

overview of their eligibility, career opportunities, and professional benefits. In addition, participants received training in Microsoft Excel, focusing on essential functions and tools widely used in accounting, finance, auditing, and business operations.

Throughout the three-day workshop, students actively participated in discussions, practical exercises, and interactive sessions, enabling them to strengthen their technical knowledge and gain valuable insights into professional career pathways. The programme aimed to equip participants with foundational skills and increase their awareness of career opportunities in the global accounting and finance industry.

Theme of the Event:

Financial Modelling for Real world Business Challenges

This internship workshop was designed to equip students with knowledge of globally recognized professional certifications such as CMA and CPA while strengthening their practical skills in Microsoft Excel. The programme aimed to prepare participants for successful careers in accounting and finance by enhancing their technical competencies and career awareness.

Detailed Report:

MyLogic Institute successfully conducted a three-day internship workshop for seven foreign students with the objective of providing exposure to globally recognized professional courses and developing practical skills relevant to the accounting and finance industry. The programme focused on enhancing participants' understanding of CMA and CPA certifications while strengthening their communication, presentation, digital marketing, and Microsoft Excel skills through interactive learning activities.

Day 1:

The programme commenced with a welcome session and self-introductions by all seven participants, creating an interactive and collaborative learning environment. This was followed by an informative session delivered by Ms. Bhumika, who provided a comprehensive overview of the Certified Management Accountant (CMA) and Certified Public Accountant (CPA) professional courses. She explained the eligibility criteria, examination structure, career opportunities, global recognition, and the advantages of pursuing these certifications. Following the session, students were divided into two teams, namely the CMA Team and the CPA Team. Each team prepared a PowerPoint presentation on their assigned topic and presented their findings, demonstrating their understanding, teamwork, research, and presentation skills.

Day 2:

The second day focused on creativity and communication through a content creation activity. Students worked collaboratively to develop promotional content and short videos highlighting MyLogic Institute and the professional courses offered by the institution. This activity enhanced their creativity, digital communication, teamwork, and marketing skills while helping them understand the importance of promoting educational programmes through engaging content.

Day 3:

The final day featured a practical session on Microsoft Excel, conducted by Ms. Shakti Komal. The session introduced students to essential Excel functions, formatting techniques, and data management tools commonly used in accounting and business environments. After the training, participants completed a hands-on activity by preparing a report in Excel using the concepts learned during the session. The workshop concluded with a review of the participants' work and reflections on the knowledge and skills gained throughout the three-day programme, making the internship a valuable learning experience for all participants.

Outcomes:

- Gained a clear understanding of the CMA and CPA professional courses, including their scope, eligibility, and career opportunities.
- Enhanced presentation, communication, and teamwork skills through group discussions and PowerPoint presentations.
- Developed creativity and digital marketing skills by creating promotional content and videos for MyLogic Institute.
- Acquired practical knowledge of Microsoft Excel and improved report preparation and data management skills.
- Increased professional awareness, confidence, and career readiness through interactive learning and hands-on activities.

Conclusion and Audience Feedback Summary:

The three-day internship workshop conducted by MyLogic Institute was a valuable learning experience for all seven participants. The programme provided comprehensive knowledge of the CMA and CPA professional courses while developing essential practical skills through Microsoft Excel training, presentations, and content creation activities. The interactive sessions and hands-on assignments enhanced students' technical knowledge, communication, teamwork, and confidence. Overall, the workshop successfully achieved its objectives by preparing participants with the skills, awareness, and professional insights required for future academic and career growth in the accounting and finance industry.
